Due to the novel coronavirus pandemic, voting for the June 2 election is being conducted primarily by mail, with limited locations to submit completed ballots at designated drop-off locations or to vote in-person on election day.

The novel coronavirus pandemic resulted in the date of the Primary being postponed from April 28. While mail-in ballots display the original Primary date of April 28, the ballots are in fact valid for the June 2 election. Voters should be aware these are official ballots that will record actual votes. They are not sample ballots.

Votes cast by mail remain anonymous. The same technology and equipment used for in-person voting is utilized to count mail-in ballots. The equipment is never connected to the Internet or any other database.

The Maryland State Board of Elections is committed to educating voters on the changes made to the election procedures due to the novel coronavirus pandemic. These changes have been made to ensure voters can exercise their fundamental right to vote while also safeguarding the public's health during this pandemic.
